CERTIFICATE
INKS FOR FOOD PACKAGING PRINTING

We hereby certify that our Process series Cyan, Magenta, Yellow and Black inks range from MARTINEZ AYALA brand fulfil the **EN71/3 European Norm** requirements regarding the contain of heavy metals as plumb, cadmium mercury, chrome, polybromobiphenyl (PBB) or polybromodiphenylethers (PBDE) and aromatic amines used in the production of printing inks for food packaging.

Our inks also fulfil the following norms:

- **ASTM F963** (US norm);
- **94/62/CE** (European norm).

The components used during the production of those inks (pigments, resins, oils, waxes, driers and anti-oxidants) contains a quantity of heavy metals inferior to the maximum level authorised by the European legislation.

Moreover, our products do not require a special labelling as they are not classified as hazardous products.

Therefore, in witness whereof, and for such purposes as may arise, we issue this Certificate that I, Mr. Javier GUERRERO OLIVER (ID 45711146A), acting as Technical Manager of MARTINEZ AYALA S.A. I duly sign and stamp.

Javier Guerrero Oliver
Technical Director
